## Sebastián Martínez

**Role:** Developer

**Experience:** 4 years.

**Email:** semartinez.6226@gmail.com

**LinkedIn:** <https://www.linkedin.com/in/martinez-sebastian/>

**Nationality:** Argentinian

## Profile

I am a software developer working for Morning Values company. I am an enthusiastic person who likes to face new challenges and grow, both as a team and individually. I am interested in applying technologies in new challenging projects.

I believe in the virtuous circle that is created when we cooperate, work in close collaboration with others, learn from each other and share knowledge.

## Experience

### ERP Developer Odoo

Description: Since January 2024 to date. We customize modules for the company through Odoo platform. We work creating extensions for modules, build up new modules and we integrate them with other systems.

Main Technologies Used: Multiple technologies from Odoo.

Team size: 2 developers, 1 project owner

### Full Stack in Bioceres and Cabase

Description: Since January 2024 to date. This both projects with similar characteristics works with .NET for the backend and Angular for Frontend. We actively catch new requirements from the clients, develop and propose improvements in the systems and deploy new features for their use.

Main Technologies Used: Multiple technologies from Odoo.

Team size: 2 developers, 1 project owner

### ERP Developer at SamConsultGroup

Description: Since January 2022 to date, I am working on a project for SamConsultGroup company. This project consists of developing ERP software for many companies of SamConsultGroup. My tasks are to define user stories getting contact with the customers, create functional documentation, develop, and deploy. For this purpose, I use Microsoft tools like Dynamics 365 – Finance & Operations, VS Code, and MSSQL.

Main Technologies Used: Dynamics 365, X++, C#, VS Code, MSSQL, Microsoft Cloud

Team size: 8 developers, 1 project owner, 2 functional analysts

Duration: 1 year

## Full Stack Developer at Fravega. Personal Loans

Description: Since December 2020 to December 2021, I was working on a project for Fravega company.

This project consisted of micro services which interact with each other to comply with the necessities of the business. The micro services are REST APIs programmed in Java for the back end and the framework Vue Js of JavaScript for the front end. The design pattern is an MVC pattern. My tasks were to participate in the design of the solutions, develop new features and maintain the APIs, make my own unit test for the code, and deploy them in production environments.

Main Technologies Used: Java, Vue js, JUnit

Team size: 4 developers, 2 QA, 2 DevOps, 2 Project owners

Duration: 1 year

## Full stack Developer at Tiendaplex.

This project was an online store. It consisted of three applications, one for managing the store, another for the clients, and the last one to incorporate new store owners. I migrated to Ionic versions from the applications and developed new features. During this project, I worked on my own most of the time, and I developed new skills like improving my documentation reading and debugging my code.

Main Technologies Used: Typescript, JavaScript, Firebase, ionic

Team size: 1 Project owner

Duration: 8 months

## Back-end developer at Fravega. IPOS project

Description: This project consisted of an application for seller rooms. It was an interface where the seller could search for different information to make a sale. It was in the MVC pattern.

Main Technologies Used: Java

Team size: 3 developers, 1 Project owner

Duration: 5 months

## Education

Software Engineer at Universidad Nacional del Centro de la Provincia de Buenos Aires - Facultad de Ciencias Exactas (UNICEN) - Not finished (21/35)

## Courses

2022	<b>Microsoft Certified</b> Azure Fundamentals.
------	---

2024	React Js Developer – Educación IT
<b>Languages</b>	
English	C1
Italian	Intermediate
Spanish	Native

# Trinity College London

## Module Certificate

**Sebastián Martínez**

is awarded

## ISE III Reading & Writing Module

**CEFR Level C1**

**This module is part of the  
Integrated Skills in English qualification**

Reading - Pass  
Writing - Pass

Date: November 2023  
Place of entry: Dublin (Centre no. 59865)  
Certificate issued: 11 December 2023
